*Metal Backs Available for Outdoor Models

- Avoid collisions using convex mirrors at strategic points.
- Use largest diameter possible for greatest vision distance.
- Roundtangles offer larger view with low ceiling heights.
- Mirrors are equally important in garage stairways and elevators.

HEAVY DUTY ROUNDTANGULAR MIRRORS

Our Heavy Duty Roundtangular Mirrors are designed to fit into lower clearance areas that still need a view comparable to our standard convex mirrors. These mirrors are used in parking garages, loading areas and blind spots near machinery. The Hardboard back and re-enforced vinyl trim protects this mirror from the elements.
