

DomeVex[®]

A cure for Tunnel Vision

Cross aisle traffic can create a big problem in tunnel type aisles in your storage rack areas. These areas have been unprotected in the past but now our DomeVex Mirrors can provide a solution.

The 180° Viewing angle can warn drivers of traffic entering the tunnel aisle from multiple rack aisles.

DomeVex mirrors mount flush against the inside rack upright, at eye-level for a quick look at blind spot traffic.

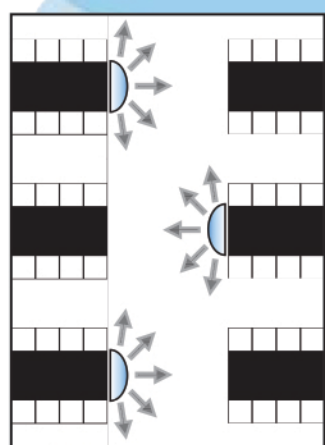

Indoor & Outdoor Models Available

Sizes - 16", 24", 32", & 42"

The view distance ratio is about 1 foot of viewing distance to each inch of the diameter of the mirror.
